**REACH THE SPOT.**

To cure an aching back,  
The pains of rheumatism,  
The tired-out feelings,  
You must reach the spot—get at the cause.

In most cases 'tis the kidneys.  
Doan's Kidney Pills are for the kidneys.

Charles Bierbach, stone contractor, living at 2925 Chestnut St., Erie, Pa., says: "For two years I had kidney trouble, and there was such a severe pain through my loins and limbs that I could not stoop or straighten up without great pain."

had difficulty in getting about and was unable to rest at night, arising in the morning tired and worn out. The kidney secretions were irregular and deposited a heavy sediment. Doctors treated me for rheumatism, but failed to help me. I lost all confidence in medicine, but Doan's Kidney Pills relieved me so quickly and so thoroughly that I gladly made a statement to that effect for publication. This was in 1903, and during the three years which have elapsed I have never known Doan's Kidney Pills to fail."

A FREE TRIAL of this great kidney medicine which cured Mr. Bierbach will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

**How to Breathe.**

Another thing that women must learn after they have been taught to coax the pure fresh air into their rooms is how to breathe it. "Not one woman in 50 who comes into my consulting room knows how to breathe until I show them," said a physician the other day. "The majority are really ignorant of the fact that it is possible to take deep breaths. The fifth woman, who knows how to breathe, is the one who is not given to nerves."

**Thousands Have Kidney Trouble and Never Suspect it.**

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and pleasant effect of Swamp-Root is soon realized. It stands the highest of its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Home of Swamp-Root, writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

## Many Sudden Deaths

From Poisonous Rheumatism

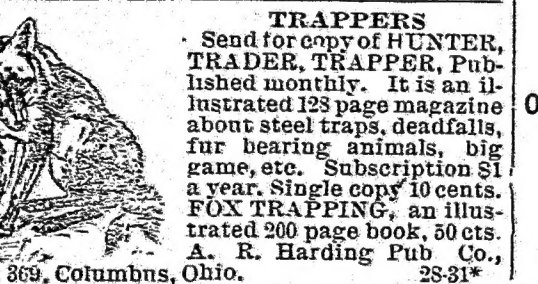

The Disease Has Its Dangers—Should Be Taken in Time.  
Rheumatism has long been regarded as a trouble which, while it might be painful, was not necessarily dangerous. Very few persons it was thought, ever died from Rheumatism. Recent investigation among scientists has proved, however, the utter fallacy of such a belief. Three-fourths to seven-eighths of the sudden deaths from heart failure, etc., are due primarily to neglected rheumatism. The rheumatic Acid Poison is allowed to stay in the system until suddenly one day it grips the muscles of the heart and all is over.

Rheumatism is curable if the proper treatment is used. Liniments, plasters and all local applications may relieve the pain for a short time, but no one ever heard of their permanently curing a case of rheumatism. The only way to cure Rheumatism is the Uric-O way. Neutralizes the Rheumatic acid and drives it from the system. That is what Uric-O does. No matter what is the kind or character of the Rheumatism, it is all caused by the same Rheumatic Poison. Lumbago, Muscular or Articular Rheumatism, all at once to Uric-O. Noyes' Drug Store is the home of Uric-O in Norway. They tell you all about its wonderful virtues and the many cures it has made. Write here in your own town. It sells for 75c and \$1.00 a bottle. If you wish to test Uric-O before purchasing, a letter to the Smith Drug Co., Syracuse, N. Y., will bring you a trial bottle free of all charges.

## A Nation of Thieves!

Are we? That is the reputation we bear among other nations. Years ago I spent some time in Canada (not for my country's good, however) and I learned while there that the natives wanted cash when dealing with Americans, and that as a general thing my compatriots were regarded with distrust and suspicion. I was indignant at the time, and thought it very unjust to judge us all by the fugitives from justice who had fled there from "the States."

But now, I think that our law-breakers have very little to do with giving us our dirty name. And really they are not our worst citizens. And all's told. At least, not the humble specimens who are unimportant enough to fall into the clutches of the law. The thieves and dishonest methods employed almost universally wherever business is transacted, by our leading and honored citizens, there is the "canker" of the body that is destroying our good name.

Is a trader honest when you have to watch his scales to see that you get correct weight? Is it a common occurrence, in a man honest, who will give a wrong impression in a trade to gain a few cents more than he could get if he told the plain unvarnished truth? They nearly all do it. Wherein lies the difference (twixt robbing our neighbor by hand or by trade? And where does his benefit come in?

Take our corn factories for instance. Ask the gentle farmers how much is stolen from them when their corn is weighed and measured. Behold our butter creameries! Again ask the guileless farmer what percentage of his cream and eggs he gets his pay for; how much he gets docked on eggs each month, and how much his cream shrinks between the time it leaves him and the time he gets the returns.

One would think the Grangers might control matters like that, but they are too busy, seemingly, learning the best method of preserving artichokes and whether black apples ship best packed in sawdust or sour milk, and experimenting as to which is more destructive to crops, the brown tail moth or the Brown Leghorn hen. So they continue to be filched and complain thereof.

Take the milkmen, ice companies and gas trusts of all our large cities. They are not only organized thieves (so property is murdered) but are murderers also, and the lives of thousands of the wretched poor are annually sacrificed to satisfy their cruel greed, little children dying for the daily life giving milk and cooling ice daily every summer, for the price has been raised above the reach of their wretched parents. It would have been more humane (and profitable) if the companies had sent their agents around the houses and chloroform to expediate the demise of the unfortunate infants in an up-to-date business-like manner.

Why ice should be more expensive than it used to be is hard to understand, unless the mercury used in our thermometers has been so adulterated that it costs more to run them down to freeze, and thus complicates the intricate process of manufacturing ice during our long New England winters. But even so there ought to be some good reason why the gas men are allowed to adulterate their gas and thus kill scores of their patrons and nothing done about it. And as to the meat packers, that's another story—a serial. And nothing doing. No excitement. Nobody punished. All as lovely as "a day in June." We are accustomed to it. Are we a nation of thieves?

When a man or community asks a law or necessary ruling from (or by) their State legislature, the first question asked of him is "What is it worth to you?" That sum, more or less, they will see what can be done for him.

When a whole State legislature becomes addicted to graft so openly that they are obliged to investigate (?) themselves, and find only one man worthy of punishment (he was indiscreet) is it any wonder other nations look askance at us?

When a President of our "land of the free" can save millions of dollars out of his four years' salary of \$50,000 per annum, why wouldn't other nations begin to sit up and take notice.

When our courts never convict a really big "gun," no matter what the offense against life liberty, or pursuit of happiness, and our common cattle remain docile in their pastures, and graze on undisturbed, not a steer among them with a life enough to "lift a kick," is it really remarkable that we are suspected of being unduly "thrifty" in our dealings, a nation with a birth-mark that looks like this \$.

named it Father John's Medicine.

Its power to make strength and build
